Education

Axis Institute of Technology and management

Bachelor of Technology , Computer Science

Kanpur

Aug. 2020 – June 2024

JD Education Center

Higher Secondary Education

Kanpur

April. 2017 – May 2018

Technical Skills

Data Structures and Algorithms

Programming Languages : Python, C Language, JavaScript

Frameworks/Libraries : React JS, Next JS, Material-UI, Axios or Fetch, React Router.

Databases : MongoDB, Firebase

Developer Tools : Git, Github, Postman, Visual Studio Code, PyCharm

Experience

Product Engineer Trainee / Zooco

April 2023–Sep 2023

- Orchestrating the development of user interfaces in accordance with provided design specifications. Collaborate with the Design & Engineering team
- API integrations and developing layouts for the dynamic interfaces.
- Facilitating seamless collaboration with cross-functional teams, including Design and Engineering, to ensure a cohesive and polished product
- Pioneering the conception of novel and innovative ideas aimed at optimizing and augmenting product features.
- Active participation in regular team meetings, fostering effective communication and alignment within the project.

Projects

AUPDESHIK (Empowering Your Learning Journey) / ReactJS, ReactJS-Libraries, VSCode, Firebase

Present

- **Expert Consultation:** Navigate your educational path with confidence by tapping into the wisdom of industry experts. Engage in one-on-one consultations, ask questions.
- **Interactive Learning:** Immerse yourself in a dynamic learning environment. Connect with experts through video calls and chat to get instant clarification on your doubts.
- **Pomodoro-Driven Productivity:** Boost your efficiency with a built-in to-do list inspired by the Pomodoro technique.
- **Kaizen Principles for Continuous Improvement:** Aupdeshik believes in the power of continuous improvement. Embrace the Kaizen philosophy as you progress through your courses.
- With the contribution of my other team member, we end up with this **B.Tech final year**.

AMMAKART (E-Commerce website) / ReactJS, ReactJS-Libraries, VSCode, Firebase

June 2023

- **Intuitive User Experience:** Crafted an intuitive and user-friendly interface, enabling customers to effortlessly browse, select, and add products to their carts.
- **Efficient Cart Management:** Implemented a robust cart management system, allowing users to add, remove, and modify their selected items. This feature enhances user convenience, ensuring a hassle-free shopping process.
- **Streamlined Order Placement:** Facilitated a straightforward order placement process, optimizing the checkout experience for users.
- **Responsive Design with ReactJS:** Leveraged the power of ReactJS to create a responsive and adaptable design, ensuring a consistent and enjoyable shopping experience across various devices and screen sizes.
- **Firebase Integration for Seamless Functionality:** Integrated Firebase for backend support, ensuring the seamless functioning of features like user authentication, real-time updates, and dynamic content delivery.
